

Vipat Choknantawong

Software Engineering / Full-Stack Developer

✉ choknantawongvipat@gmail.com | 📞 (+66) 064-930-4461 | 🌐 takopiii-portfolio.vercel.app | 📍 [MyNameTakopiii \(Takopiii\)](#) | Lat Krabang, Bangkok, Thailand

Profile

Highly motivated Software Engineering student (KMITL, graduating 2026) with hands-on, production-level experience across full-stack web development, enterprise system features, and cloud-integrated services. Comfortable owning a feature end-to-end from database schema and backend logic to UI and reporting within cross-functional teams. Seeking opportunities in software development, system analysis, business analysis, or IT audit where I can apply strong technical foundations and analytical thinking to deliver reliable, business-aligned solutions. Bilingual in Thai (native) and English (TOEIC 515).

Education

King Mongkut's Institute of Technology Ladkrabang (KMITL) Graduation: 2026
Bachelor of Science, Information Technology — Software Engineering Module

Triamudomsuksanomklao School Graduation: 2022
High School

Experience

Web Developer — Internship, Skyfrog Co., Ltd. January 5, 2026 – July 10, 2026

- Developed a real-time monitoring tool for Windows services, giving the operations team visibility into service status and health and reducing manual checks.
- Maintained and enhanced features within the TMS (Transportation Management System), a core product built with .NET and Ext.js and marketed to enterprise clients, including Thai Stanley.
- Owned the Costing module for TMS: built the logic to pull cost data defined by clients through master-data setup and apply it automatically to each shipment's DO (Delivery Order), reducing manual costing work for logistics operations.
- Built the Costing Report feature, generating exportable reports in both Excel and PDF formats for client-facing cost review.
- Diagnosed and fixed bugs across the TMS codebase, supporting internal developers and improving system stability for the team.
- Designed and implemented an internal License Report service in .NET that automatically compiles license usage data and emails scheduled reports to internal stakeholders.
- Built a .NET service to transfer photo files from the server to Azure Blob Storage, streamlining file/document handling for the TMS platform.
- Developed backend APIs consumed by the AI team for the Marketplace system, enabling AI-driven features on top of transportation/marketplace data.
- Built APIs supplying the AI team with the data needed to diagnose root causes of driver delays, supporting an AI-powered delay-analysis feature.

Teaching Assistant, KMITL — IT Faculty July 2024 – March 2026

- Graded assignments and provided in-depth guidance on Data Structures & Algorithms (Python) during lab and exercise sessions.
- Assisted students with MySQL fundamentals, including DDL, DQL, and DML.
- Guided students in understanding NoSQL technologies, including MongoDB, Cassandra, and Neo4j.

Frontend Developer — Internship, Advisory Company Limited April 2025 – July 2025

- Developed Safejai and implemented Thai/English i18n using Next.js and next-i18next.
- Built a responsive UI with Tailwind CSS/SCSS and collaborated with design and backend teams to integrate translation APIs and validate localization.

Projects

IncanTerraceFlow — Terraced-farm water-flow simulator

[GitHub](#)

- Built a C# (.NET / Windows Forms) simulator for Tech Tournament Bangkok Bank #2 that models water flowing across a grid of Incan terraces, splitting flow proportionally by slope and tracking coverage and water loss.
- Implemented a BFS-based propagation engine (with a "tortoise" mechanic that breaks walls to unblock flow) plus a brute-force search to find the optimal starting column, backed by unit tests.

Ticket Bever — Activity reservation web app [GitHub](#)

- Django, JavaScript, Tailwind, PostgreSQL, Gemini API.

Khonsong Dee — Transportation tracking & fleet-management web app

- FastAPI, Traefik, Nest.js, Express, Next.js, MongoDB, PostgreSQL, RabbitMQ.

Eye Yoga — Online yoga exercise app with ML-powered pose features [Demo Video](#)

- FastAPI, Next.js, TensorFlow.

Hunsa Salon — Salon reservation platform with CI/CD pipeline and cloud deployment

- React, Express, Jenkins, AWS EC2, Docker, Tailwind.

DSView — Interactive data-structure visualizer for KMITL students [GitHub](#) | [Demo Video](#)

- Shows Python code execution and animated structure operations in a playground. Next.js, TanStack, Fiber, FastAPI, MinIO, PostgreSQL.

SeniorLink — Part-time job platform for elderly job seekers [GitHub](#)

- Group project (KMITL coursework) connecting elderly job seekers with companies hiring for part-time roles: job search/matching, online applications, and application-status tracking. React, Django, PostgreSQL, Docker, Jenkins CI/CD.

Jonk-Food-IT — Food-ordering web app [GitHub](#)

- KMITL Database-course project. HTML, CSS, JavaScript, Express.

Skills

Languages:	TypeScript, JavaScript, Python, SQL, Go, C#
Frameworks & Libraries:	Next.js, Node.js, Express.js, FastAPI, React, Svelte, Django, Tailwind, Fiber, Shadcn, Ext.js, .NET Core, Vue.js, Nuxt
Databases & ORMs:	PostgreSQL, MongoDB, Prisma ORM, Microsoft SQL Server
DevOps, Cloud & Virtualization:	Docker, AWS, MinIO, Git, Linux (Ubuntu), Postman
AI Tools:	ChatGPT, Claude, Kimi AI, Gemini, Google Stitch, Loveable
Design Tools:	Figma, Canva
Productivity Tools:	Notion, Microsoft Office, Jira
Soft Skills:	Problem-Solving, Time Management
Languages Spoken:	Thai (Native), English (Intermediate, TOEIC 515)

Achievements & Certifications

- 2nd Runner-Up, Tech Tournament — Bangkok Bank
- Top 10, Huawei ICT Competition 2024–2025, Cloud Track (National Round)
- Top 50, GOSOFT Retail Tech Hackathon 2026
- Top 10, AMSA x GDGoC Hackathon 2026
- Huawei Tech Essentials Certificate — Huawei
- Basic Web Development Certificate — 42 Bangkok

Additional Experience

Staff, IT3K Sports Event — IT Faculty November 2024

- Set up and managed event venues before and after activities.

Staff (Deputy Head, Venue Team), Unite — IT Faculty June 2024

- Coordinated venue setup, maintenance, and cleanup.

Staff, IT Camp — IT Faculty May 2024

- Managed photos and videos for social media promotion.
