

# Vipat Choknantawong

วิปตย์ โชคนันทวงศ์

## Software Engineering/Full-Stack Developer

Email: choknantawongvipat@gmail.com

Phone: (+66) 064-930-4461

Portfolio: [takopiii-portfolio.vercel.app](#)

Address: Lat Krabang, Bangkok, Thailand

## PROFILE

Highly motivated Software Engineering student (KMITL, graduating 2026) with hands-on, production-level experience across full-stack web development, enterprise system features, and cloud-integrated services. Comfortable owning a feature end-to-end — from database schema and backend logic to UI and reporting — within cross-functional teams. Seeking opportunities in software development, system analysis, business analysis, or IT audit where I can apply strong technical foundations and analytical thinking to deliver reliable, business-aligned solutions. Bilingual in Thai (native) and English (TOEIC 515).

## EDUCATION

### King Mongkut's Institute of Technology Ladkrabang (KMITL)

Bachelor of Science, Information Technology — Software Engineering Module | Graduation: 2026

### Triamudomsuksanomklao School

High School Diploma | Graduation: 2022

## EXPERIENCE

### Web Developer — Internship | Skyfrog Co., Ltd.

January 5, 2026 – July 10, 2026

- Developed a real-time monitoring tool for Windows services, giving the operations team visibility into service status and health and reducing manual checks.
- Maintained and enhanced features within the TMS (Transportation Management System), a core product built with .NET and Ext.js and marketed to enterprise clients, including Thai Stanley.
- Owned the Costing module for TMS: built the logic to pull cost data defined by clients through master-data setup and apply it automatically to each shipment's DO (Delivery Order), reducing manual costing work for logistics operations.
- Built the Costing Report feature, generating exportable reports in both Excel and PDF formats for client-facing cost review.
- Diagnosed and fixed bugs across the TMS codebase, supporting internal developers and improving system stability for the team.
- Designed and implemented an internal License Report service in .NET that automatically compiles license usage data and emails scheduled reports to internal stakeholders.
- Built a .NET service to transfer photo files from the server to Azure Blob Storage, streamlining file/document handling for the TMS platform.
- Developed backend APIs consumed by the AI team for the Marketplace system, enabling AI-driven features on top of transportation/marketplace data.
- Built APIs supplying the AI team with the data needed to diagnose root causes of driver delays, supporting an AI-powered delay-analysis feature.

### Teaching Assistant | KMITL, IT Faculty

July 2024 – March 2026

- Graded assignments and provided in-depth guidance on Data Structures & Algorithms (Python) during lab and exercise sessions.
- Assisted students with MySQL fundamentals, including DDL, DQL, and DML.
- Guided students in understanding NoSQL technologies, including MongoDB, Cassandra, and Neo4j.

### Frontend Developer — Internship | Advisory Company Limited

April 2025 – July 2025

- Developed Safejai and implemented Thai/English i18n using Next.js and next-i18next.
- Built a responsive UI with Tailwind CSS/SCSS and collaborated with design and backend teams to integrate translation APIs and validate localization.

## PROJECTS

---

**Ticker Bever** — Activity reservation web app.

*Django, JavaScript, Tailwind, PostgreSQL, Gemini API*

**Khonsong Dee** — Transportation tracking & fleet-management web app.

*FastAPI, Traefik, Nest.js, Express, Next.js, MongoDB, PostgreSQL, RabbitMQ*

**Eye Yoga** — Online yoga exercise app with ML-powered pose features.

*FastAPI, Next.js, TensorFlow*

**Hunsa Salon** — Salon reservation platform with CI/CD pipeline and cloud deployment.

*React, Express, Jenkins, AWS EC2, Docker, Tailwind*

**DSView** — Interactive data-structure visualizer for KMITL students; shows Python code execution and animated structure operations in a playground.

*Next.js, TanStack, Fiber, FastAPI, MinIO, PostgreSQL*

## SKILLS

---

**Languages:** TypeScript, JavaScript, Python, SQL, Go, C#

**Frameworks & Libraries:** Next.js, Node.js, Express.js, FastAPI, React, Svelte, Django, Tailwind, Fiber, Shadcn, Ext.js, .NET Core, Vue.js, Nuxt

**Databases & ORMs:** PostgreSQL, MongoDB, Prisma ORM, Microsoft SQL Server

**DevOps, Cloud & Virtualization:** Docker, AWS, MinIO, Git, Linux (Ubuntu), Postman

**AI Tools:** ChatGPT, Claude, Kimi AI, Gemini, Google Stitch, Loveable

**Design Tools:** Figma, Canva

**Productivity Tools:** Notion, Microsoft Office, Jira

**Soft Skills:** Problem-Solving, Time Management

**Languages Spoken:** Thai (Native), English (Intermediate, TOEIC 515)

## ACHIEVEMENTS & CERTIFICATIONS

---

- 2nd Runner-Up, Tech Tournament — Bangkok Bank
- Top 10, Huawei ICT Competition 2024–2025, Cloud Track (National Round)
- Top 50, GOSOFT Retail Tech Hackathon 2026
- Top 10, AMSA x GDGoC Hackathon 2026
- Huawei Tech Essentials Certificate — Huawei
- Basic Web Development Certificate — 42 Bangkok

## ADDITIONAL EXPERIENCE

---

**Staff, IT3K Sports Event — IT Faculty (November 2024)**

Set up and managed event venues before and after activities.

**Staff (Deputy Head, Venue Team), Unite — IT Faculty (June 2024)**

Coordinated venue setup, maintenance, and cleanup.

**Staff, IT Camp — IT Faculty (May 2024)**

Managed photos and videos for social media promotion.
